Website: www.chromstation.com

1. Background

a. Company History

ChromStation SB was established in 2008 by a team of chromatography specialist concerned by the lack of chromatography support especially in the field of training, validation and method development.

b. What we do

ChromStation provides expert chromatography services including High Performance Liquid Chromatography (HPLC), Gas Chromatography (GC), Mass Spectrometer (MS), UV Vis Spectrophotometer, FTIR, Atomic Absorption Spectrophotometer (AAS), Inductive Coupling Plasma (ICP), Thermal Analyzers (DSC & TGA) training, short courses and seminars. Our laboratory directors have trained hundreds of professionals internationally in the art and science of Chromatography, Spectroscopy and Mass Spectrometer. We have also expanded our business into life sciences instruments such as PCR, from supplies to services as well.

Our technical engineers are certified to repair, maintain and calibrate all commonly used laboratory instruments including chromatography system, mass spectrometers, spectrophotometers, thermal analyzers, elemental analyzers and life sciences instruments.

To date, we have diversified our area of expertise to supply analytical and supporting instruments such as gas generators, chromatography consumables, chemicals, standards and certified reference materials.

2. Strategy & Vision

a. Vision statement

To improve ourselves in all areas of preventive maintenance, training, validation and method development, including laboratory consultation and supplies, thus enabling us to be the company of choice in the analytical instrument field with the slogan "Leader in Serving Science".

b. Mission statement

Our mission is to deliver excellence sales and service to our customer through cost savings, efficiencies and professionalism.

Postal Address: No. 2A, Jalan Putra Mahkota 7/8A, Putra Point Business Center, Putra Heights, 47650, Subang Jaya, Selangor Darul Ehsan, Malaysia.

c. Values

Integrity – This is the foundation of our operations and we abide by the highest ethical standards of personal and business conduct. Everyone is responsible for taking the ethical, thoughtful decisions with the utmost uprightness at all times and treat each other with respect at all times, both internally and externally.

Commitment – Our priority is to demonstrate a relentless effort to provide technical support to customers and solve customer's problem. We are there to understand customers' needs and apply our knowledge and expertise to meet commitment and deliver results through goal setting. We are not just stopping here; we are looking to build a long-term relationship with customer.

Professionalism – We form the best team in industry by fostering diversify of professional competencies from different horizons. Providing the solution and service with great knowledge and experiences with competency is our advantage in the industry competition.

3. Products & Services

a. Products

Supply analytical and life sciences instruments, consumables, chemicals, standard and certified reference materials for instrument calibration.

b. Services

Our services include supplying consumables, chemicals, standards and certified reference materials for instrument calibration. We also provide instrument calibration, technical installation, maintenance, user training and application support for analytical and life sciences instruments.

c. Business competitiveness.

We strive to provide the highest level of product quality and services at a competitive price.

Postal Address: No. 2A, Jalan Putra Mahkota 7/8A, Putra Point Business Center, Putra Heights, 47650, Subang Jaya, Selangor Darul Ehsan, Malaysia.

4. Management & Ownership

a. Directors

Foo He Chuang B.Sc. (Hons.) Chemistry
Business Development Manager
22 years in chromatography business and application supports formally from Titan Petrochemical, Research Instrument and PerkinElmer

b. Managers

Wearn Thin Fah B.Sc. (Hons.) E&E Engineering
Service Manager (Analytical)
15 years in analytical instrument services formally from Shimadzu, PerkinElmer and Varian

Loke Cheng Lone B.Sc. (Hons.) E&E Engineering
Service Manager (Life Science)
15 years in analytical instrument services formally from Fisher, Research Instrument and Analisa Resources

Wong Hung Siew B.Sc. (Hons.) E&E Engineering
Technical Service Leader
12 years in analytical services formally from PerkinElmer

Jacqueline Liew B.Sc. (Hons.) Chemistry
Customer Supports Manager - Separation Sciences
10 years in analytical instrument application supports formally from IT Tech and DKSH Technology
